

# Statement of Work: Snowflake Crime Data ETL Pipeline

**Project Name:** Snowflake Crime Data ETL Pipeline

**Date:** 20 July, 2026

## Introduction & Objectives

The objective of this project is to design and implement a scalable Python-based data ETL pipeline in Snowflake that transforms raw crime data into a clean, aggregated, and reporting-ready dataset suitable for use in BI analysis. Particular emphasis should be placed on data quality and validation throughout the pipeline.

## Scope of Work

The **Project Manager** is responsible for:

- Documentation - Statement of Work, README, Workflow Diagram, Presentation
- Project oversight + ensure logical workflow
- Set up & Manage GitHub repository

The **Data Ingestion Engineer** is responsible for:

- Data Ingestion

The **Data Quality Engineer** is responsible for:

- Data Cleaning & Validation

The **Analytics & BI Engineer** is responsible for:

- Data Transformation & Aggregation
- Export Final Dataset
- Data Dictionary

## Project Deliverables

1. ETL Pipeline (Snowflake - Python Notebook)

2. Reporting Dataset (CSV file)
3. Workflow Diagram
4. Data Dictionary
5. README File

## Timeline & Milestones

| Milestone                                  | Deliverable                                      | Estimated Completion |
|--------------------------------------------|--------------------------------------------------|----------------------|
| Setup & Planning                           | ETL Pipeline                                     | 21 Jul, 2026         |
| Ingestion Layer                            | ETL Pipeline                                     | 27 Jul, 2026         |
| Cleaning & Validation Layer                | ETL Pipeline                                     | 28 Jul, 2026         |
| Feature Engineering & Transformation Layer | ETL Pipeline                                     | 28 Jul, 2026         |
| Aggregation for Reporting                  | ETL Pipeline                                     | 29 Jul, 2026         |
| Export & Final Validation                  | ETL Pipeline / Reporting Dataset                 | 29 Jul, 2026         |
| Documentation & Deliverables               | Workflow Diagram / Data Dictionary / README File | 30 Jul, 2026         |

## Datasets Used

- Crime Data:
  - Source: [Data Downloads | data.police.uk](https://data.police.uk)
- Population Data:
  - Source: [Population estimates for police force areas in England and Wales by single year of age and sex, mid-1991 to mid-2024 - Office for National Statistics](https://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationestimates/articles/populationestimatesforpoliceforceareasinenglandandwalesbysingleyearofageandsexmid1991tomid2024/1)
- Deprivation Data:
  - Source: [English indices of deprivation 2025 - GOV.UK ...Welsh Index of Multiple Deprivation \(WIMD\) 2025: index and domain ranks and groups,](https://www.gov.uk/government/statistics/english-indices-of-deprivation-2025)

## Project Team

Project Manager: Teanna Ottey

Data Ingestion Engineer: Tom Hughes

Data Quality Engineer: Esther James

Analytics & BI Engineer: Noah Esguerra

## Signatures

Teanna Ottey | 20th July, 2026

Tom Hughes | 20th July, 2026

Esther James | 20th July, 2026
